DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 11-12 were repeated and been renumbered as 13-14. The subsequent claims were renumbered as 15-22.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Art Unit: 3624

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-4, 6-11 and 13-17 and 19-22 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Stimson et al.

The reference clearly teaches the elements of claim 1-4, 6-11, 13-17, and 19-22. (See, column 2, line 23 – column 3, line 16.)

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5, 12 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stimson et al.

5. The reference fails to teach “switching from a prepaid service to a postpaid service.” The examiner takes official notice that the variable of extending credit for the purpose of increasing sales is well known in the retailing art. It would have been obvious for one skilled in that art at the time to have implemented the postpaid practice (i.e., extending credit) as motivated by the need to retain customers and increase sales. The examiner takes official notice that using art recognized variables for their art recognized results is per se obvious.
